Product Specification Sheet

Targus Defcon® KL

Part #: PA450E

Product Description:

The DEFCON® KL is a cable lock for notebooks which is locked using a key, so no need to remember any combination access code. It is a sturdy locking device featuring a steel cable, with a pass through loop on one end, and lock on the other end. Any attempts to remove it, will noticeably damage the computer, preventing resale and therefore discouraging theft.

The lock utilises the security slot already built into your notebook computer, and attaches to the notebook using the same method as the DEFCON™ CL (Combination Lock). The Key Lock also comes with 2 identical keys, giving you the peace of mind of a back-up key.

Product Features and Specifications:

- Protects your notebook and deters theft
- Conveniently uses the security slot already built into your notebook
- Uses a key locking mechanism so there is no need to remember a combination access code
- Locking Device: Steel Alloy Housing
